PROJECTS / OPEN-SOURCE

MINWAY | Link

HTML, CSS, JavaScript

It is a web game application that uses the Minimum Path cost concept. A 5 5 matrix filled with various values is provided to us. We need to determine the shortest route from top-left to bottom-right of the matrix. Before the game begins, the username and character will also be taken. I employed JavaScript, HTML, and CSS.

MY TODO | Link

React

It is a react application to save our daily tasks. I created a really nice, eye-catching interface and dark mode functionality for this application. I used components, states, props hooks, and router while developing this React application.

CALCULATOR | Link

HTML, CSS, JavaScript

It is a calculator that can carry out mathematical operations. JavaScript, HTML, and CSS are used in this application.
